

# Stylish & Affordable Mediterranean Roofing Solution

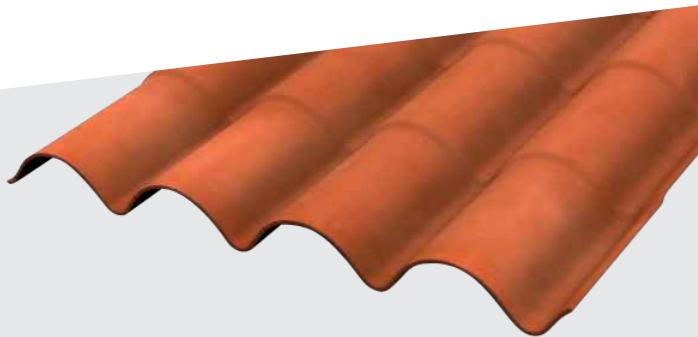

## We've got you covered

Owning a stylish Mediterranean roof, has never been easier or more affordable!

Light-weight, tough, quick and easy to install, the Marley Verona Fibre Cement Solution offers stylish good looks at a fraction of the cost of clay.

Ideal roofing cover for Homes,  
Schools or any large-scale facility!

## **NEW!** Marley Verona Fibre Cement Roof Sheets

Stylish and economical – Marley Verona offers a simple and effective Mediterranean Style roofing solution

### Advantages:

- > **Affordable and Stylish** – a clay-simulated look at the fraction of the cost when compared to clay.
- > **Lightweight and Economical** – the large light-weight sheets afford a quicker installation and lighter sub-structure, that results in labour and material cost savings
- > **Suitable for low pitched installations** – can be installed at roof pitch of 20°
- > **Dry ridge and hip construction** – effective and simple to install universal and hip ridges that do not require mortar bedding.
- > **Improved thermal insulation when compared with steel sheeting** – more stable indoor temperatures and substantial decrease in reverberation and noise.

Available in dual tone  
terracotta:

> 1.062m x 1.60m sheets

**100% Asbestos Free!**

All our profiled sheeting  
contains no asbestos
