

Solofix Clips

SoloFix Clips consist of one-piece clip-and-nail solution that can be used with all standard interlocking tiles to prevent deluging and lifting of concrete roof tiles during excessive wind force loads. This one-piece solution also provides a quicker installation when compared to the standard two-piece storm clip.

ADVANTAGES

- Universal - can be use with all standard interlocking tiles
- Quick to install - all in one cost effective mechanism to secure roof tiles from excessive wind forces.

Available in all regions
